DETAILED ACTION

Response to Amendment

1. As applicant did not wish to further amend the claims to place the application in condition for allowance (see the attached interview summary form), an action the merits follows.

Claim Objections

2. The claims are objected to because they include reference characters which are not enclosed within parentheses.

Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements in the claims should be enclosed within parentheses so as to avoid confusion with other numbers or characters which may appear in the claims. See MPEP § 608.01(m).

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1,3 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Jones (US 2,685,981).

Disclosed is closure device 2, closure mechanism 9, peripheral support structure 3, and a closure member as the central opening formed by crossing the deformable structures across one another. To the degree set forth, the closure mechanism is elastically deformable (to a certain degree).

Claim Rejections - 35 USC § 103

5. Claims 1,3, and 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karesh (US 4,078,686) in view of Jones.

Karesh teaches a plastic container having a closure device at each end.

Art Unit: 3727

Jones teaches it is known to provide a closure having a deformable opening and closing mechanism.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to substitute the closures of Karesh with the closure of Jones. Doing so would allow for opening and automatic reclose of the container without removal of the closure device.

Allowable Subject Matter

6. Claims 4-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments with respect to claims 1 and 3-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

10. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:
